Client Ref. No.: 2001-IP-004081CON2
Date: October 2, 2003

Sir:

This Information Disclosure Statement, including completed Forms PTO-1449, comprises a list of pertinent art of which Applicants are aware. A copy of each publication listed on the Form PTO-1449 photocopy was filed in the parent case, Serial No. 10/025,157, and are therefore not enclosed with this Information Disclosure Statement. The references cited on the new PTO-1449 form were cited by the Examiner in co-pending application Serial No. 10/027,749, of which the current application is a continuation.

Pursuant to 37 C.F.R. § 1.98 (d), copies of certain patents, publications, pending U.S. application(s) or other information, as specified in 37 C.F.R. § 1.98 (a), listed in the attached Form PTO-1449 are not provided herewith, as they have been previously submitted to the Office in the above-mentioned earlier U.S. Patent Application. The Information Disclosure Statement filed in the earlier application(s) complies with 37 C.F.R. § 1.98 (a)-(c).

The submission of this Information Disclosure Statement and the references submitted therewith is not an admission that the art cited is "prior" with respect to the present invention, nor

is it a representation, that no better art exists. Applicants hereby reserve the right to swear behind or otherwise disprove any alleged "prior" nature of any art cited should the facts support and the situation warrant such an action. It is submitted that the art cited does not constitute a bar to the patentability of Applicants' invention under 35 U.S.C. § 102 or § 103.

The relevance of references listed on the form PTO 1149 is that they were identified either by an experienced searcher looking for relevant art, by the inventors as relevant art, or by an examiner in a related case.

This Information Disclosure Statement is being filed concurrently with the above-referenced continuation patent application, therefore, no fee is due for the filing of these papers.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mark E. Scott', written over a horizontal line.
